

If you forget tasks a lot and procrastinate often,
look no further,
this app will surely help you get more done!

Make
your day

Problems

Time managment

Some people can get plenty of things done in a single day while your time slips through your fingers.

Forgetting things

Your life is overfilled with information and you can easily forget what you want to do today.

Procrastination

You always put off or delay important things or something requiring immediate attention

Solution 1

Start you day not with coffee but with planning your daily routine using our app.

Solution 2

In our app you will be able to create a to-do list and add reminders so you'll not miss any task.

The Utopia

Requirements

Creating tasks

Creating events

Setting a reminder

Addinng comments

Planning repetitive tasks

Searching

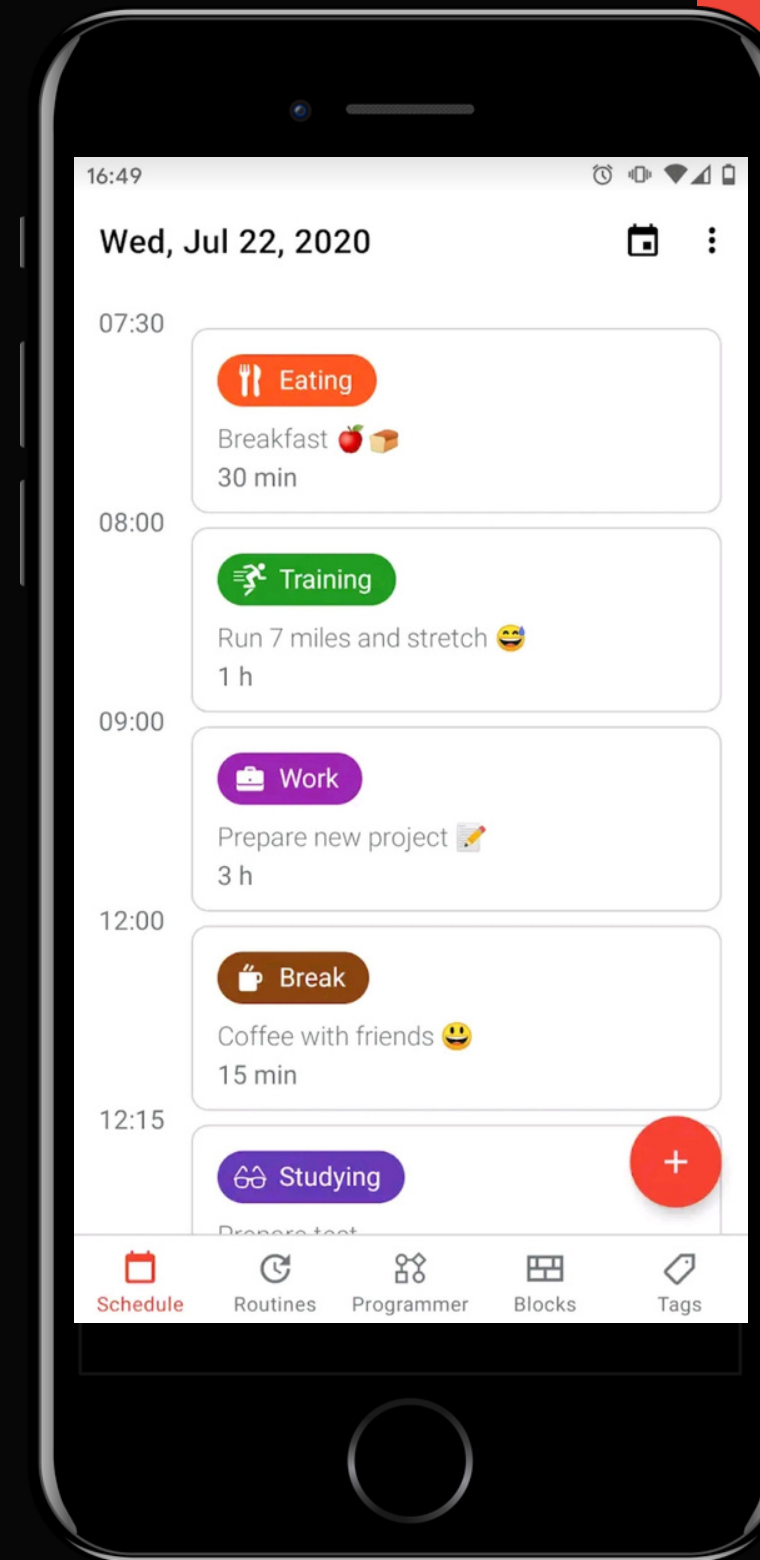

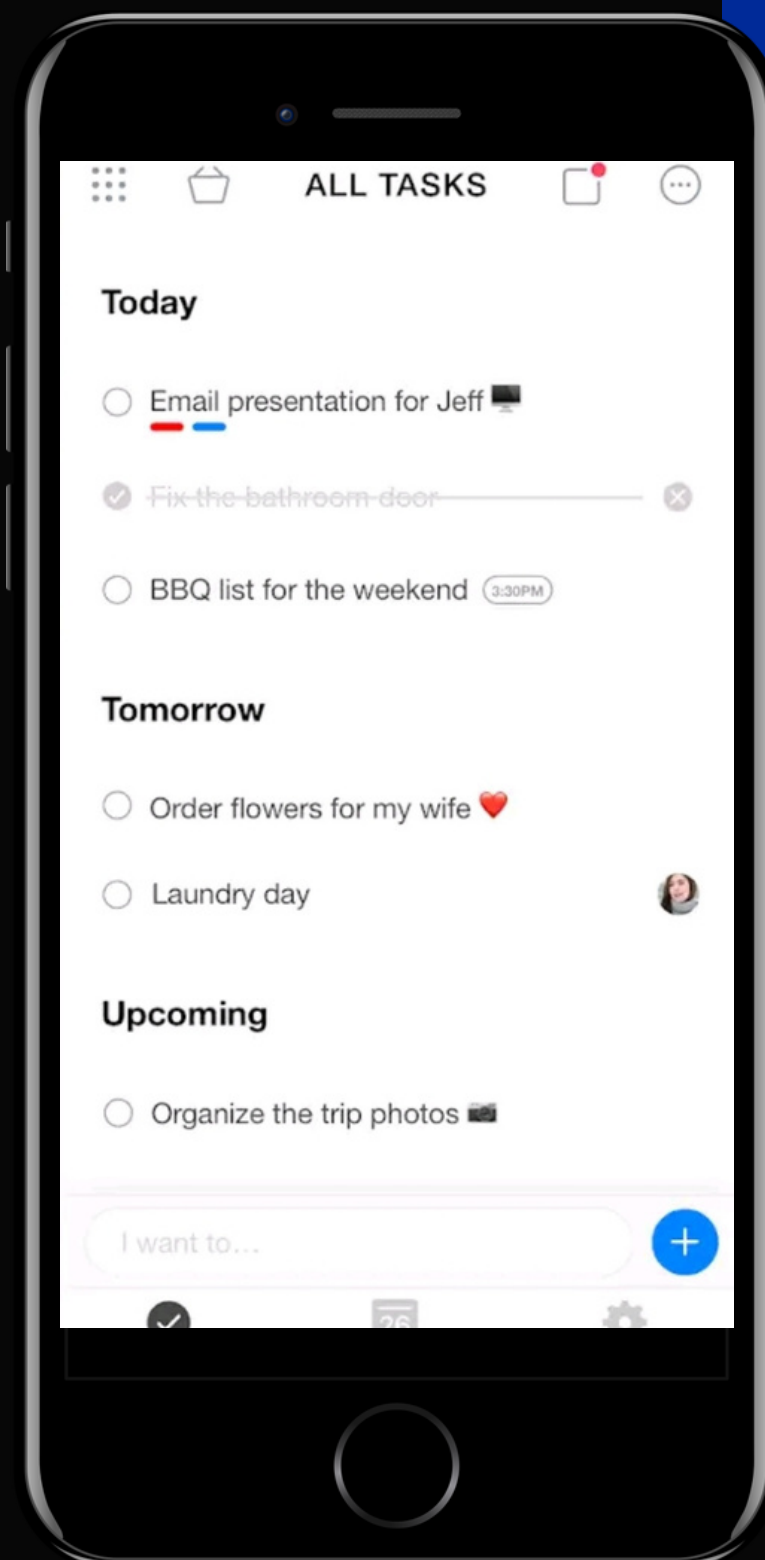

Competitors

Any.do

TimeTune

Competitive Advantages

SYNCS SEAMLESSLY

Keeps all your to do list, tasks, reminders, notes, always in sync so you'll never forget a thing.

WORK TOGETHER

Share your to do list and assign tasks with your friends, family & colleagues from your task list to collaborate and get more done.

CUSTOMIZATION

Full customization for each notification independently

GREAT INTERFACE

User-friendly interface

Disadvantages

Allows to set only 1 reminder

Cannot set sound notification

Cannot search for task titles,
events, comments

So, we did the market analysis, understood the advantages and disadvantages of competitive programs. Now our goal is to create an application that will absorb all the best of those products and solve their shortcomings
