Using "Manage NuGet Packages" we installed StyleCop.Analyzers and added it to the project.

Then we built our project in Visual Studio and warnings appeared in the output window:

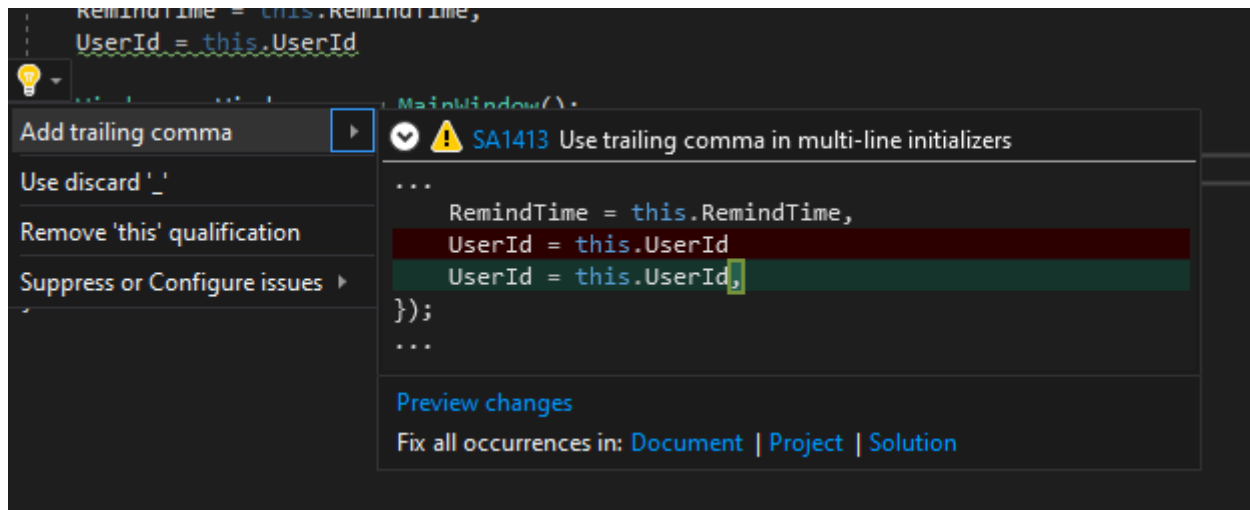

LIST OF WARNINGS

1) **SA1208** – SystemUsingDirectivesMustBePlacedBeforeOtherUsingDirectives

2) **SA1413** – UseTrailingCommasInMultiLineInitializers

3) **SA1000** - KeywordsMustBeSpacedCorrectly
4) **SA1515** - SingleLineCommentMustBePrecededByBlankLine
5) **SA1005** - SingleLineCommentsMustBeginWithSingleSpace
6) **SA1101** - PrefixLocalCallsWithThis
7) **SA1003** - SymbolsMustBeSpacedCorrectly
8) **SA1309** - FieldNamesMustNotBeginWithUnderscore
9) **SA1516** - ElementsMustBeSeparatedByBlankLine
10) **SA1400** - AccessModifierMustBeDeclared
11) **SA1629** - DocumentationTextMustEndWithAPeriod
12) **SA1028** - CodeMustNotContainTrailingWhitespace
13) **SA1507** - CodeMustNotContainMultipleBlankLinesInARow
14) **SA1513** - ClosingBraceMustBeFollowedByBlankLine
15) **SA1500** - BracesForMultiLineStatementsMustNotShareLine
16) **SA1504** - AllAccessorsMustBeSingleLineOrMultiLine
17) **SA1013** - ClosingBracesMustBeSpacedCorrectly

We cleaned the code.

There are 5 warnings left. But we can't delete events because we will still need it.
